Meeting the needs of Dentists

At Southern Cross Dental we lead the way in providing high quality dental products and services to dental industry professionals.

Over the last two decades we have partnered with practices to provide the best in laboratory products, services and education. We always strive to achieve excellent results for every customer and their patients.

Our dedicated team are here to remove any obstacles or doubts from tooth restorations to full implant solutions and we look forward to working with your practice towards better patient care. Our comprehensive range of products includes fixed and removable prosthodontics, all-ceramic restorations, implants, occlusal appliances and antisnoring devices.

We also offer customers access to MySCD, our secure online portal that supports patient case management. MySCD allows you to search, view and track patient cases; view and print invoices and statements; print personalised lab sheets and pay online.

1. Diagnostics

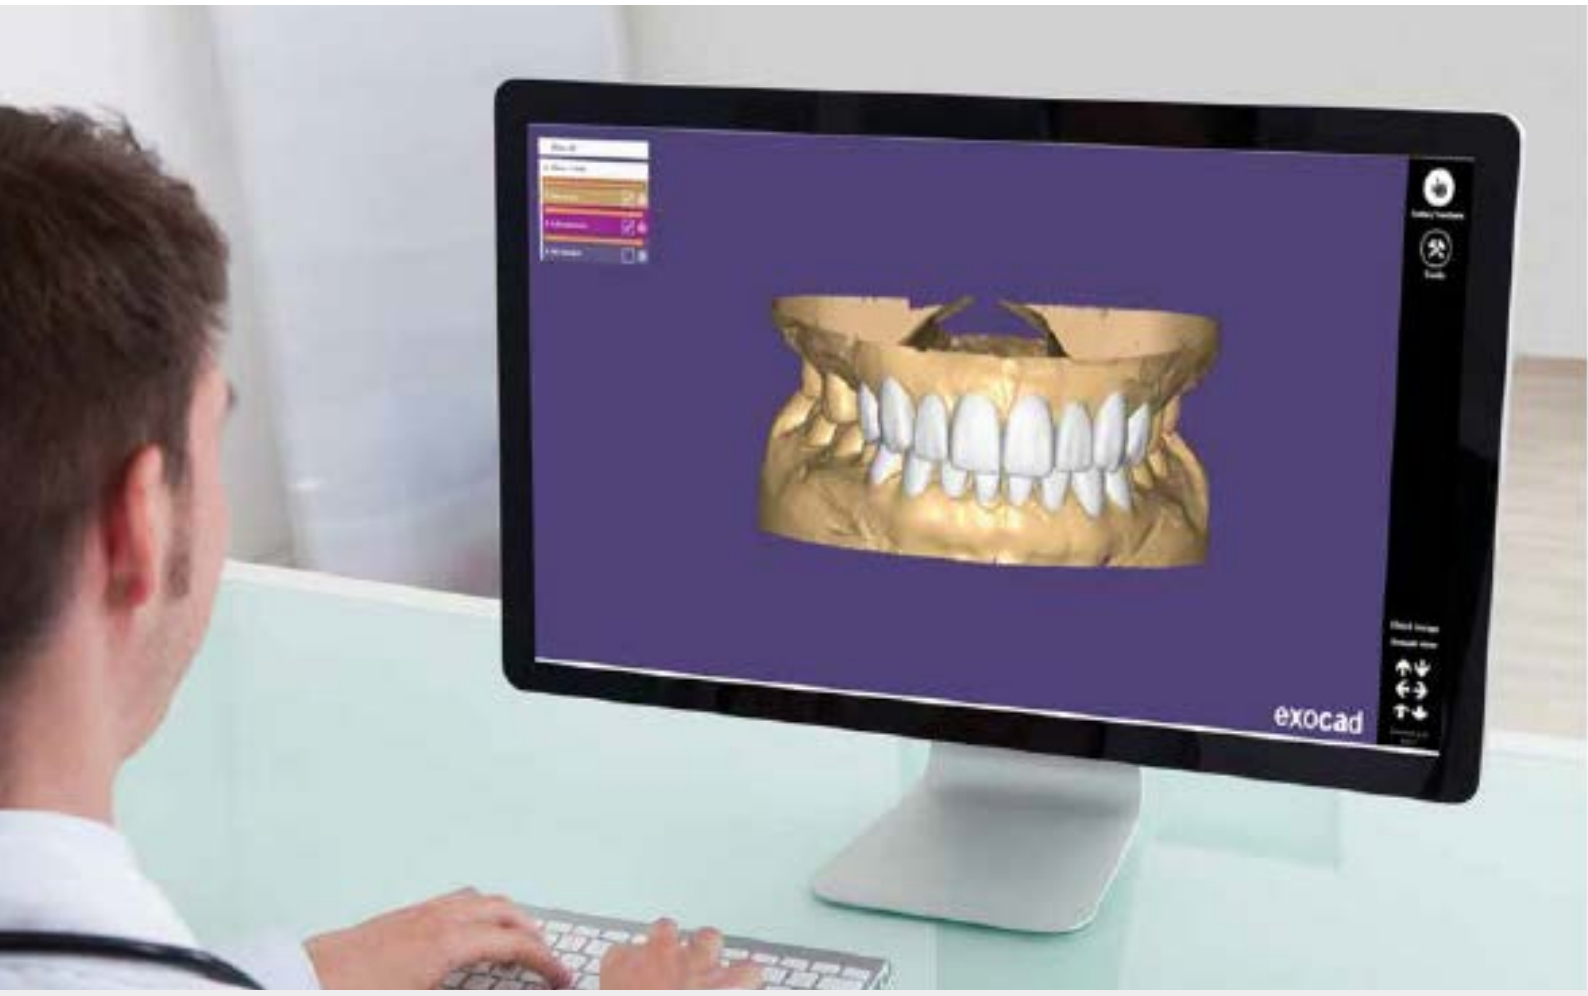

As a dentist, you make decisions every day about the treatment plan of many patients. A correct diagnosis is essential for this. Nowadays there are more and more products and services available that support your diagnosis and can give you an idea of the right treatment.

SCD Smile Design

With an SCD Smile Design, an ideal design is made based on a facial analysis and the golden ratio. This is a unique opportunity to give your patient a visual example of the end result of the treatment. You can also use SCD Smile Design to discuss a multidisciplinary approach in practice.

SCD View

Not every situation and/or patient offers the opportunity to perform an extensive smile design analysis. SCD View offers you a digital diagnostic wax-up that combines the advantages of digital preparation at a competitive price.

Digital Diagnostics

SCD Smile Design		
SCD Smile Design	Single Arch	€99.00
SCD Smile Design	Both Arches	€149.00
SCD View		
SCD Digital Wax-Up (excl. 3D printed model)	1-8 units	€66.50
SCD Digital Wax-Up (excl. 3D printed model)	9-14 units	€87.50
SCD Digital Wax-Up (incl. 3D printed model)	1-8 units	€82.50
SCD Digital Wax-Up (incl. 3D printed model)	9-14 units	€105.50
Study Model		
Digitally Printed Study Model (Per Set)	In occlusion	€40.50

Traditional Diagnostics

Diagnostic Wax Up		
Diagnostic Wax Up	1-4 units	€55.00
Diagnostic Wax Up	5-9 units	€68.00
Diagnostic Wax Up	10+ units	€85.00
Casted Models		
Plaster Model	Per Model	€17.50
Study Model	Per Set	€33.00
3D Printed Models		
CAD/CAM 3D printed model	Per Arch (With product)	€10.50
CAD/CAM 3D printed model	Per Set (With product)	€13.50

2. Minimally Invasive Treatment

How do you treat patients with tooth wear?

The range of treatment options naturally includes indirect solutions with a choice of different materials. This scenario often requires tooth preparation and is not always applicable to every patient. Southern Cross Dental strives to provide solutions and now comes with an alternative treatment option: Composite Injection Technique.

Direct flowable composite is used to achieve a perfect, total rehabilitation. Direct composite materials have undergone a spectacular development in composition, which has resulted in optimisation of both aesthetic and physical properties. Today, direct composites are offered in a flowable, injectable consistency that, thanks to nanotechnology, equals the properties of composites in paste form.

Every dentist undoubtedly has patients who can be helped. The alternating and full wax-up transparent silicone keys, which SCD manufactures over the approved digital wax-up, ensure control over the interproximal zones and a perfect occlusion. Creating the ideal morphology has never been so easy.

Composite Injection Technique

Single Arch		
Anterior	1 zone	€360.00
Posterior	2 zones	€460.00
Complete	3 zones	€560.00
Dual Arch		
Anterior	2 zones	€590.00
Anterior with Posterior	3 zones	€690.00
Posterior	4 zones	€790.00
Anterior with Posterior	5 zones	€890.00
Complete	6 zones	€990.00
Other		
Addition of optional Try-in Phase	Single Arch	€180.00
Addition of optional Try-in Phase	Dual Arch	€245.00
Traditional Impression Surcharge	Plaster & digitisation of model	€37.00
Additional Composite Syringes		€40.00

One stop shop package

With the kit you get a one stop shop solution. As a “solution provider” we provide you with a complete package with all the tools and products required for this procedure.

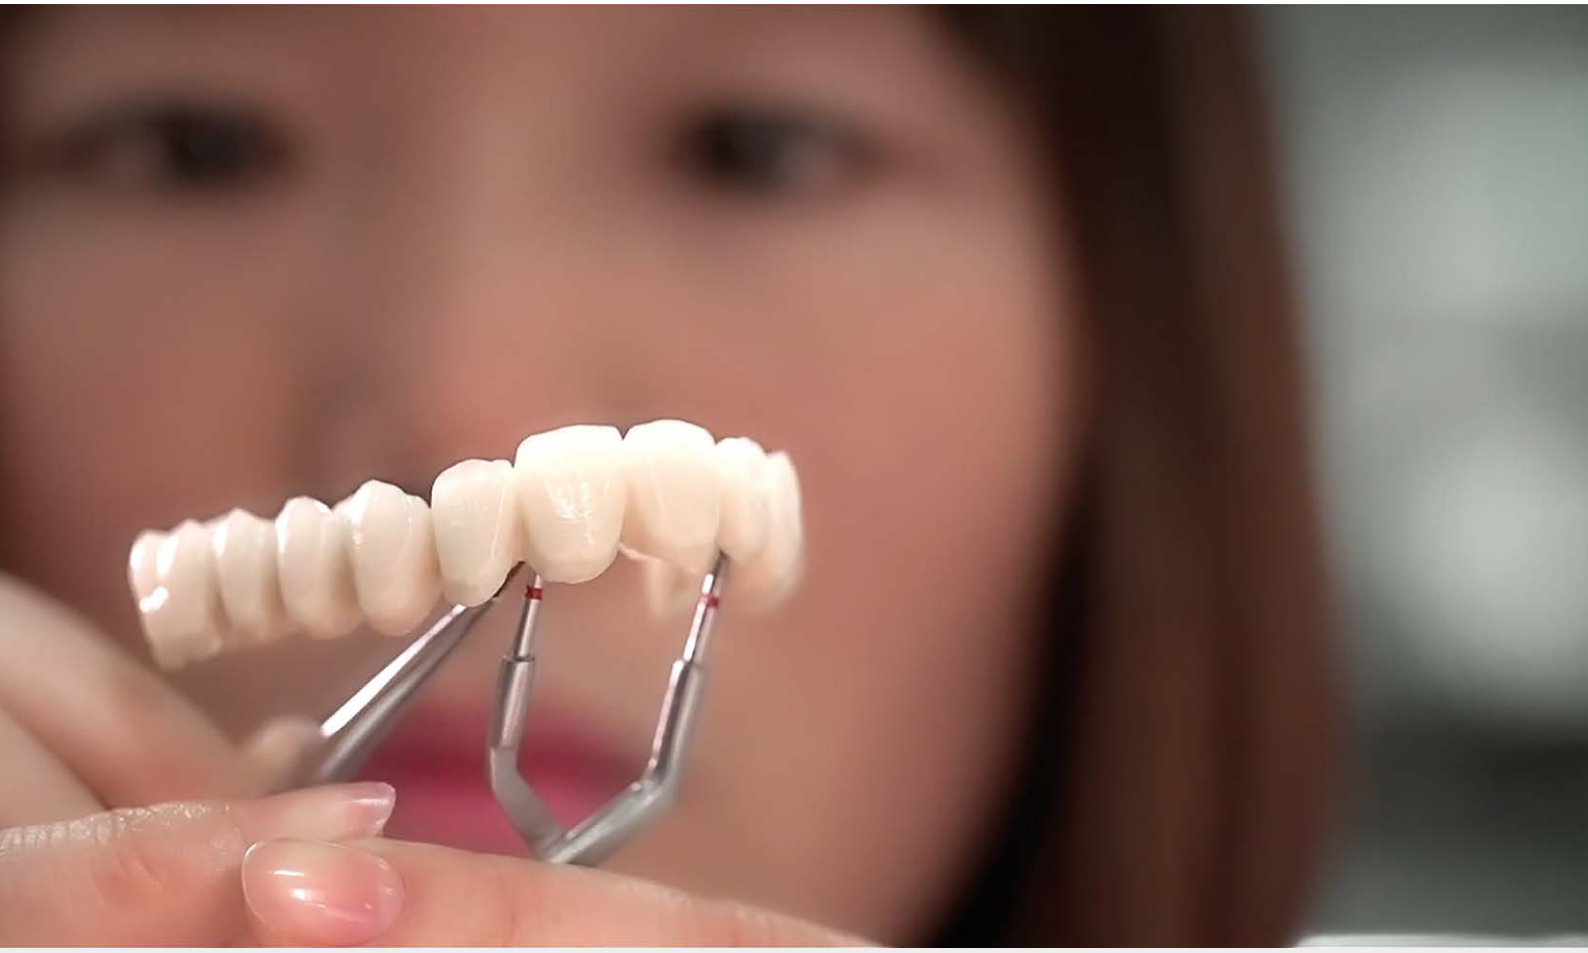

- SCD View Diagnostics
- Putty mold full wax up for mock up (optional)
- Preliminary composite in cartridge for mock-up (optional)
- 3D printed models, full & alternating
- Transparent injection keys
- Direct injectable composite syringes in the right shade
- Teflon tape for isolation
- Interproximal finishing metal strips
- Polishing rubbers for finishing and polishing the composite

3. Crown & Bridgework

We work with the latest equipment and techniques to manufacture our prostheses. Our work is manufactured using state-of-the-art technology. All our products are manufactured following globally recognised processes.

Our restorations are manufactured through a quality management system that is certified under ISO 9001:2008 and ISO 13485:2016. We are also certified production partners with Ivoclar Vivadent and 3M ESPE.

Our CAD/CAM specialists and highly skilled dental technicians are happy to discuss with you which options are most suitable for a particular case.

Crown/Bridge section

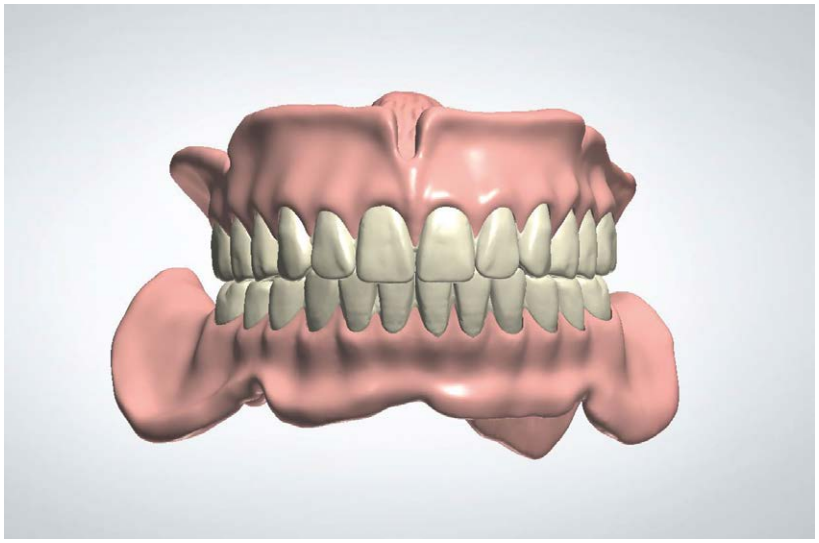

All Ceramic		
IPS e.max® Mono	Crown/Veneer	€144.00
IPS e.max® Layered	Crown/Veneer	€160.00
Fully Monolithic Zirconia	Fully Monolithic Zirconia	€102.50
Ultra Translucent Zirconia	Ultra Translucent Zirconia	€133.50
PFZ	Porcelain-Fused-to-Zirconia	€144.00
Hybrid Ceramic		
VITA ENAMIC®	Hybrid Ceramic	€170.00
Composite		
CERAMAGE®	Zirconium Silicate Micro Ceramic	€96.00
Containing Metal (Ni Free)		
PFM	Porcelain-Fused-to-Metal	€133.50
PFT	Porcelain-Fused-to-Titanium	€167.50
Full cast crown	Additional Alloy Fee	€115.50
Onlay/inlay cast metal	Additional Alloy Fee	€103.50
Maryland bridge	Pontic	€133.50
Maryland bridge	Wing	€41.00
Margins		
Porcelain buccal margain		€20.50
360 degree porcelain margin		€32.00
Post & Cores		
Cast post and core	Additional Alloy Fee	€62.00
Temporary Crowns		
Acrylic (PMMA)	Temporary	€49.50
CERAMAGE®	Temporary	€96.00

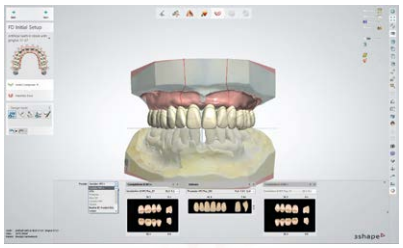

4. Dentures

The possibilities in the field of dentures has increased enormously in recent years. The flexible partial denture, with the base made of thermoplastic VertexTM ThermoSens material, still remains a popular option. A flexible partial denture is very light and pliable and offers the patient an ideal solution for daily use that combines flexibility, transparency and retention.

For a complete denture, we recommend our simple and efficient digital production process of the EVO prosthesis. The predictable protocol results in a higher quality removable prosthesis.

If you need a copy of the current prosthesis and need to make improvements then choose our EVO-Twin. Your patient will have a new prosthesis in just two to three visits.

Digital Precision Dentures	
EVO Digital Try in	€75.00
EVO Fusion Milled Denture	€195.00
EVO Fusion Printed Denture	€175.00
DUO tray with wax rim	€48.50
3D printed base with wax rim	€30.50

Removable Prosthodontics

Traditional Dentures		
Special Tray		€23.00
Wax bite rims		€23.00
Traditional Dentures Set-Up for Try-in		
1 Tooth		€66.75
2 Teeth		€78.00
3 Teeth		€89.25
4 Teeth		€100.50
5 Teeth		€111.75
6 Teeth		€123.00
7 Teeth		€134.25
8 Teeth		€145.50
9 Teeth		€156.75
10+ Teeth		€168.00
Traditional Dentures Process for Acrylic		
1 Tooth		€51.50
2 Teeth		€56.00
3 Teeth		€60.50
4 Teeth		€65.00
5 Teeth		€69.50
6 Teeth		€74.00
7 Teeth		€78.50
8 Teeth		€83.00
9 Teeth		€87.50
10+ Teeth		€92.00

Cast Metal - Cobalt Chrome Denture		€185.50
Cast Metal - Pure Titanium Casting		€235.00
Tooth Coloured Clasp/Clear Clasp		€34.00
Flexible Resin Denture Material		€65.00
High Impact Acrylic		€41.00
Soft Denture Lining		€55.00
Extra Wire-Straightener		€17.50
Repair Fracture		€49.50

Price includes Ivoclar Vivadent BlueLine (R) DCL Premium Denture Teeth

5. Implantology

Our in-house milled individual abutments, better known as Forma® abutments, are a better choice than Ti-base abutments. As an extra service, our Forma abutments will generally be gold anodised.

Anodising is the name for a treatment method, in which an electrochemical process is used to form an oxide layer on the material. As a result, the "skin" of oxide forms a protective layer on the titanium. What is special is that during anodising no extra layer is applied to the titanium: the anodising creates a layer that is built up from the existing titanium. The oxide layer is fully integrated into the material and forms a strong molecular bond.

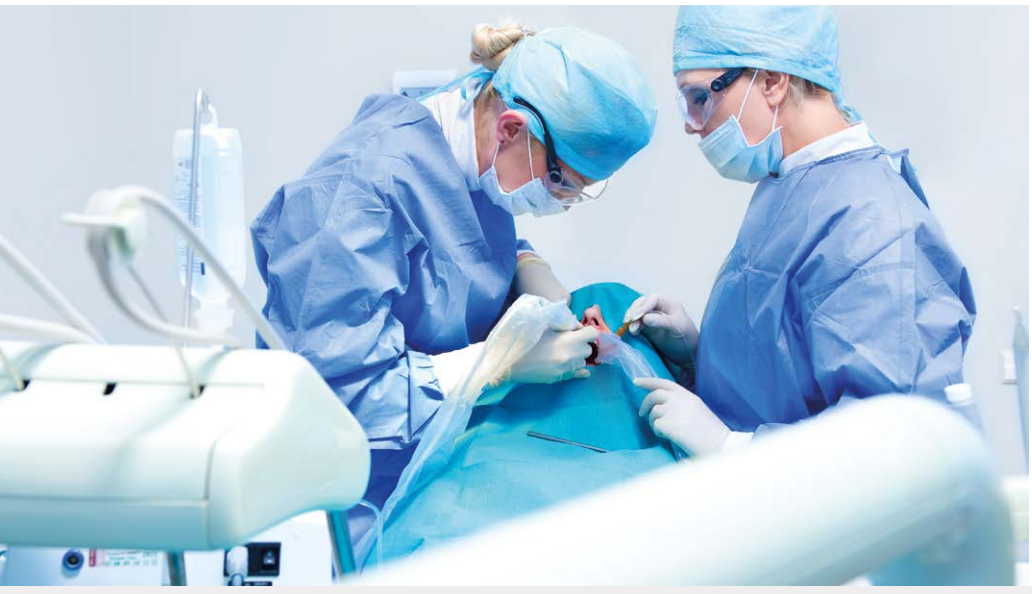

There are many advantages of anodising:

- Warm tooth-coloured translucency at the gingival level.
- Beautiful restoration in the aesthetic zone.
- Protection against gray oxidisation.
- Hard and wear-resistant surface layer against corrosion.
- Unchanged dimension due to limited thickness: +/- 100 nm.
- Added value without any additional cost.

Forma® abutments are individually designed and therefore optimised in terms of:

- Gingiva height.
- Emergency profile.
- Position and course of the crown margin.
- Ideal crown support thanks to a perfect anatomical design.
- Due to the standard yellow anodisation there is no grey translucency at the level of the gingiva. This is an important added value, especially in cases with a thin biotype.

A Forma® abutment always comes with a full warranty, including the implant.

SCD Implant Packages

Bundle includes: jig, analog, screw, abutment, crown and soft-tissue model

SCD Impant Packages		
PFM Implant Bundle	Screw-retained	€360.00
IPS e.max® Implant Bundle	Screw-retained	€299.00
PFZ Implant Bundle	Screw-retained	€299.00
PFM Implant Bundle	Cement-retained	€360.00
Zirconia (PFZ, FMZ or UTZir)	Cement-retained	€399.00

Screw Retained Prostheses

Screw-Retained Options		
PFM Implant Crown	Screw-retained	€225.00
IPS e.max® Implant Crown	Screw-retained	€215.00
FMzir Implant Crown	Screw-retained	€159.00
PFZ Implant Crown	Screw-retained	€220.00
Composite Crown/Bridge	Screw-retained	€205.00

Cement-Retained Prostheses

CEMENT-RETAINED PROSTHESES		
PFM Implant Crown	Cement-retained	€199.00
IPS e.max® Implant Crown	Cement-retained	€220.00
FMZir Implant Crown	Cement-retained	€149.50
PFZ Implant Crown	Cement-retained	€235.00
PFM on metal pontic on implant bridge	Cement-retained	€121.50
Composite on metal pontic on implant bridge	Cement-retained	€121.50

Milled Abutments

MILLED ABUTMENTS		
Forma® CAD/CAM milled titanium abutment		€199.00
A complete range of branded and generic abutments are available.		POA

Plan & CAD/CAM Surgical Guide	4 Implants	€250.00
Plan & CAD/CAM Surgical Guide	5 Implants	€275.00
Plan & CAD/CAM Surgical Guide	6+ Implants	€300.00

6. Orthodontics

It is our aim to make it as easy and efficient as possible for you as a customer. We have knowledge in all areas within orthodontics and can therefore provide a wide range of removeable orthodontic appliances.

Orthodontics

Orthodontics Appliances		
Removable appliance	Including clasps, labial bow and rest	€85.00
Active appliance	(Including springs & clasps, screw extra)	€90.00
Hawley retainer		€65.00
Quadhelix retainer		€102.00
Begg retainer		€87.50
Twin block appliance		€152.00
Roberts retractor		€169.00
Additional orthodontic appliances are available upon request.		POA

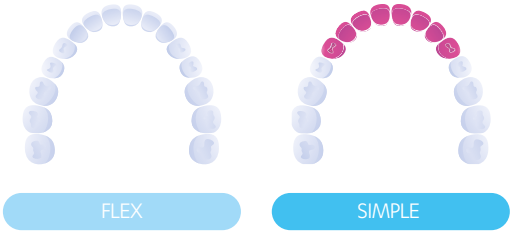

TrioClear™

Clear aligners are gaining in popularity. Patients are increasingly demanding this convenient and virtually invisible solution.

TrioClear™ has been developed to provide both predictable and comfortable tooth movements for a perfect end result, as well as to improve the dentist's workflow. This makes the treatment efficient and user-friendly. It is therefore a win-win situation for your patient, but also for your practice.

Treatment Plan Options

	FLEX	SIMPLE
Number of Steps	8	Up to 14

All TrioClear™ prices include models required for production. If you require (study) models, we will charge you separately for the printed models.

7. Anti-Snoring/ Sleep Apnoea Appliances

Insomnia, loss of concentration, fatigue and headaches are just some of the consequences that can arise if the sleep is disturbed by snoring problems. SCD now provides the Whole You (Respire) range of anti-snoring devices.

Anti-Snoring Devices (The Respire Range)	
Respire Blue+	€315.00
Respire Blue EF+	€395.00
Respire Pink	€350.00
Respire Pink EF	€430.00
Respire Pink Micro	€390.00
Respire Pink EF Micro	€530.00
Other-Snoring Devices	
Moses Appliance	€250.00
Silensor Appliance	€170.00
ZENSleep Serene	€210.00

ZENSleep Serene

Splints

SCD offers a wide range of CAD/CAM milled or 3D printed splints in various materials for your patients.

Digital Occlusal Splints		
CAD/CAM, 3D Printed Soft Splint	Digitally designed, 3D precision printed. IOS cases only.	€105.00
Traditional Occlusal Splints		
Soft splint		€61.50
Hard/soft splint		€85.00
Hard heat cured acrylic splint		€98.50
Hard heat cured acrylic splint	Semi adjustable articulator	€126.50

Zen Splint (Vapour Polished Nylon)		€90.00
Milled Occlusal Splint (Canine rise)		€125.00
Print Splint (Flat plane)		€77.00
Print Splint (Canine rise)		€102.50

Other-Snoring Devices		
Milled Occlusal Splint (Flat plane)		€125.00

Miscellaneous		
Bleaching trays	per arch	€59.00
Ortho study models		€33.00
Mouthguard/sports gum sheild		€67.00

Dentist Offer:

Connect your Scanner to SCD

Get €200 lab credit!

SCD
A Modern Dental Europe Company

No matter which brand of Intraoral Scanner you use, our **state-of-the-art laboratory** and team of **highly skilled technicians** are here to help you. **It's time to connect to SCD!**

- Over 20 years UK experience
- 500,000 cases restored
- Value-for-money
- Fast turnaround
- Free case transport

To register for this special offer, scan the QR code

*Terms and Conditions: The £250 SCD lab account credit must be spent on SCD products. The £250 is not redeemable for cash, is non-transferable and cannot be used in conjunction with any other SCD offer. Only one dentist (per intraoral scanner) can register for this offer. Offer expiry date 31st December 2026.

SHAPING THE **DIGITAL FUTURE** WITH **SCD**

From Digital Planning to Final Restoration

SCD offers personalised support and, upon request, provides on-site assistance from experienced dental technicians and digital workflow experts. For telephone enquiries, our implant and aligner team is readily available. Our specialists accompany the entire dental prosthetic process, from digital planning and ordering of implant components to the final solution. Every practice receives comprehensive support, from material selection and digital design proposals to reliable scheduling.
